JAMES CRANLEY

BM BCh, MA, MRCP

I am an academic cardiology trainee in the East of England. My clinical interest lies at the intersect of **inherited cardiac conditions** and **electrophysiology**. I am currently pursuing a PhD fellowship at the Sanger Institute[1] in the lab of Dr Sarah Teichmann[2]. I am using cutting edge **single-cell and spatial transcriptomic** methods to create a next-generation cell atlas of the human heart[3].

EDUCATION

2024 | 2021 — **Sanger Institute (University of Cambridge)**
PhD at Teichmann Lab
Cambridge, UK

2019 — **Cambridge University**
PG Certificate in Medical Education
Cambridge, UK

2018 | 2015 — **Academic Clinical Fellowship in Cardiology**
National Instiute for Health Research (NIHR)
3 month research fellowships in:

- Huang Lab[4], Cambridge Unversity
- MacRae Lab[5], Harvard Unversity
- Munroe Lab[6], Queen Mary University of London

2016 — **Membership of the Royal College of Physicians**
Royal College of Physicians
London, UK

2013 | 2007 — **Oxford Medical School**
BM BCh (Distinction)
Intercalated BA in Medical Science (1st class)
Academic ("Old Members'") scholarship
Oxford, UK

2007 | 2002 — **Eton College**
Academic ("Oppidan") scholarship
7 'A's (Maths, Further Maths, Chemistry, Biology, French, Latin, Greek)
Windsor, UK

RESEARCH EXPERIENCE

2024 | 2021 — **Wellcome Trust PhD Fellowship**
Sanger Institute

- Single cell and spatial transcriptomic analysis of the adult and developing human heart
- 50% wet lab genomics (single-cell and spatial transcriptomic)
- 50% bioinformatics (python, Bash, R)

LANGUAGE SKILLS

- R
- Python
- Bash

Last updated on 2022-12-26.

NIHR Academic Clinical Fellowship

- 2018: Genome-wide association study into ECG trait using UK Biobank data. Supervisor: Prof Patsy Munroe/QMUL.
- 2017: Introduction to zebrafish as a model for cardiovascular disease. Supervisor: Prof Calum MacRae/Harvard University
- 2016: A murine model of metabolic syndrome. Supervisor: Prof Chris Huang/Cambridge University.

2018 - 2016

2013 **Bachelor's of Science (intercalated)**

Investigating the role of the neuropeptide Galanin in cardiac autonomics using a guinea pig Langendorff model. Supervisor: Prof Neil Herring/Oxford University

Oxford University

CLINICAL EXPERIENCE

current | 2017 **Specialty Training, Cardiology**

East of England deanery

- ST6: Royal Papworth Hospital
- ST5: Norfolk & Norwich Hospital
- ST3 & ST4: Addenbrooke's Hospital

NA

2017 | 2015 **Core Medical Training**

East of England deanery

- Papworth Hospital: Cardiology
- Hinchingbrooke Hospital: Respiratory
- Addenbrooke's Hospital: ICU

2015 | 2013 **Foundation Training**

North West Thames deanery

- Harefield Hospital: Cardiology
- Hillingdon Hospital: A&E
- Charing Cross Hospital: Acute Medicine

2013 **Medical Elective**

Mount Sinai Hospital, New York

- Cardiology Dept, Mount Sinai Hospital. Supervisor: Dr Valentin Fuster[8]

TEACHING EXPERIENCE

current | 2022 **BJCA Trainee Representative to BHRS**

Committe role representing electrophysiology trainees nationally.

NA

current | 2020 **Adult Life Ssupport Instructor**

2021 | 2020 **Cardiology Webinars**

Organised and recorded a series of educational webinars for cardiology trainees, now hosted at BJCA.tv

2020 | 2017 **Trainee Representative for East of England**

Designed and delivered training days, created website.

2017 | 2016 **Preclinical (physiology) and clinical supervisor**

Gonville & Caius College, Cambridge

2015 | 2014 **Harefield Medical Student Teaching Programme**

Organised a fortnightly schedule for rotating medical students. Taught regularly.

2015 **ECG Course - Oxford Revision Courses**

Oxford Medical School

PUBLICATIONS

2022 **A single-cell comparison of adult and fetal human epicardium defines the age-associated changes in epicardial activity**

Nature Cardiovascular Research
